

## RESIDENTIAL GROUP HOMES

### SUPERVISION AND STRUCTURE FOR ADULTS WITH INTELLECTUAL DISABILITIES

#### SERVICE DESCRIPTION

Often referred to as CLAs (Community Living Arrangements), group homes offer the most supervision and structure of any of the residential services offered by dFs. Occupancy is limited to a maximum of four residents and is supervised 24 hours a day. In some situations, more than one staff person is on duty to provide supervision and assistance. Staff assists the residents with daily living skills such as proper hygiene, appropriate social interaction, home care, money management, and recreation. Individual program plans are developed with the participation of the resident and family.

Our group homes offer a comfortable, stable, and supervised environment. All group homes are inspected and licensed annually by the Department of Public Welfare, Western Region Office of Developmental Programs.

#### HOURS OF OPERATION

The dFs office hours are from 9:00 a.m. to 5:00 p.m. Monday through Friday. The group home offers 24 hour staff supervision. Most meetings regarding the residents will take place during regular business hours. Family participation in the development of service plans is important; therefore, the meetings could occur at other times to gain maximum participation in the development of the plan.

#### FEE SCHEDULE

Currently, referrals for this service are received from the client's county MH/MR office. Most people do not have to pay any fees. However, some families of individuals less than 21 years of age are assessed a liability.

If you or your family member is interested in this service which offers great opportunity, please contact your County Supports Coordinator.

#### BENEFITS

Individuals will have the opportunity to live in a home and be active members of their community. They will be afforded the chance to have the "Every Day Life" experienced by other people. They will receive assistance as needed in developing the skills that will enhance this experience. Their medical needs will be monitored by agency personnel consisting of trained Direct Care staff, a Residential Program Supervisor, and a Registered Nurse.
